

## Product Safety Position Statement

**Attn: All Stormtech Performance Apparel Ltd. customers and distributors,**

Stormtech Performance Apparel Ltd. is a safe and socially conscientious company that has been in operation for over 40 years. We are fully committed to provide safe, quality products that meet all customer's health and safety expectations.

### Responsible Sourcing

We have strong relationships with our suppliers and business partners. As an importer, we vet and work with suppliers we consider to be most "trustworthy." Stormtech's selected suppliers have years of proven experience and are proactive in many areas, including product safety, social compliance and environmental standards as required by major US Companies.

All active suppliers' facilities used for Stormtech orders are audited by reputable and credible third-party monitoring organizations, mandated by the Worldwide Responsible Apparel Production (WRAP), Fair Labor Association (FLA), Business Social Compliance Initiative (BSCI), and other certified monitoring organizations.

### Factory Visits

We visit the manufacturing facilities of our suppliers several times each year, to see firsthand how the products are manufactured, to ensure safe working conditions, and responsible labor practices are being met as per our Workplace Code of Conduct.

### Independent Testing and Inspection

At Stormtech, we take pride in ensuring our products are tested and inspected at the highest level of performance. Our products are tested through third party accredited testing laboratories according to the American Association of Textile Chemists and Colorists (AATCC), American Society for Testing and Materials (ASTM), American Apparel & Footwear Association (AAFA), among others. Our products undergo regular flammability testing and testing for lead, phthalates, and other harmful substances as/when required.

We are conducting independent third party Quality Inspection audits at every factory manufacturing our Stormtech products to insure our quality complies with our Standards requirements established within the Fabric and Apparel Performance Testing Protocol.

For more details on our compliance statements for CPSIA, California's Proposition 65, go to Stormtech's Corporate responsibility webpage:
